CITY IMPROVEMENT TRUST BOARD, MYSORE

MYSORE

Dated 17th May 1944

Report

The estimate is for opening out a draft and approach Channel for the new tunnel under construction across Poorniah's Nala As the foundation in the halla was very loose the tunnel had to be shifted higher up in the bank As the bank consists of hard rocky soil, this estimate provides for excavation in hard rock By so locating the tunnel, the Masonary structure will be founded on proper soil and it will be absolutely safe
